FOR ENGINEERING CONSULTING SERVICES
FOR RALPH W. CHAPMAN WATER RECLAMATION FACILITY
DISINFECTION SYSTEM IMPROVEMENT PROJECT**

The Otay Water District (District) will require services of a civil engineering consulting firm(s) to provide professional design services in support of the of the Ralph W. Chapman Water Reclamation Facility (RWCWRF) Disinfection System Improvement Project. The project will involve the replacement of the existing chlorine gas disinfection system with an ultraviolet (UV) process and sodium hypochlorite residual system and replacement of the filter backwash supply system. The services may include, but not be limited to, the following engineering tasks: preliminary design report preparation, construction contract documents preparation, investigation of existing conditions and facilities, permitting, bidding assistance, and construction support.

In compliance with SB 854, all Consultants and Sub-Consultants shall be registered with the CA Department of Industrial Relations (DIR). Proposals from consultants not registered with the DIR will be considered unresponsive.

Interested candidates are required to e-mail a Letter of Interest (LOI) and a Statement of Qualifications (SOQ) that includes UV system design and permitting experience to Stephen Beppler, P.E., at steve.beppler@otaywater.gov.

Deadline to submit LOI and SOQ will be at 4:00 PM, Friday, February 12, 2021. Request for Proposal (RFP) materials will be e-mailed to qualified firms on Tuesday, February 16, 2021. All questions regarding the consulting services should be referred to Stephen Beppler, P.E., at steve.beppler@otaywater.gov, Project Manager, at (619) 670-2209, prior to issuance of the RFP. After the RFP is issued, all questions will be addressed via RFP addenda.

Dated this 27th day of January, 2021.

Rod Posada, P.E., PLS, CCM
Chief, Engineering
