

PERMANENT MORATORIUM ON THE INSTALLATION OF NEW RECYCLED WATER FACILITIES WITHIN OTAY MESA

At the May 3, 2017 Otay Water District's Board of Director's meeting, the District approved a permanent moratorium on the installation of new recycled water facilities within Otay Mesa service area (see shaded area in the map below). The full staff report is available on the District's website, www.otaywater.gov.

As a result of this action, the District will not be advancing recycled water projects requiring the installation of new recycled water infrastructure nor issuing permits for new recycled water meters within Otay Mesa. Water to new development will be supplied from the District's potable water system to meet current and future developer project demand.

Please note the moratorium is **limited to Otay Mesa** and **does not** apply to the implementation of recycled water projects in east Chula Vista (the District's Central Area) where recycled water is available.

The District continues to stand firm in its commitment to the use of recycled water in order to minimize overall demand for potable water and is proud to operate one of the largest recycled water distribution systems in San Diego County.

If you have questions regarding the permanent moratorium for Otay Mesa, you can contact the Public Services Division at (619) 670-2241.
